

Alarm Control Panels

LK-120S

LK-120S: 4 burglary zones
(NC loop)

- Microprocessor controlled
- With one 24 hours emergency zone (NO loop)
- Each burglary zone supervised with end-of-line resistors and fast-response time.
- Individual by-pass switches and LED zone indicators.
- Alarm memory for each zone, battery recharge circuit, and optional remote control.
- Selectable options: Entry and Exit delay time
External siren wiring Broken detection
Audible arm / disarm indication
door chime
- System outputs: one timing relay (dry contact)
one timing alarm output 12VDC/1.0A
one ARM terminal output 12VDC/100max
one Auxilliary power output 12VDC/0.5A
- Build-in transformer (18VA) and sounder
- Dimensions: 213W x 300L x 70D mm
